Mary Kay allows us to give you 2 facials. The 1st one is to introduce you to the product

And do a basic glamour look... the 2nd is to make sure that the product you take home today is working correctly and to give you an advanced glamour look. We call that 2nd appointment, the follow-up facial and it is your 100% guarantee on the products. So, we are going to play a game today (do this game ONLY at a party with 3 or more) and every time you hear me say "follow up facial" the first person to raise their hand is going to get a ticket and at the end of the party I will be drawing tickets for our winner of this beautiful gift , that you can't live without!

So, what we are going to do today is a basic spa facial with an experiment on skin care, a lip treatment and a hand treatment plus basic glamour, we call that the Dash out the door look! Then we will schedule your follow up facial! At the end of the party I will be giving away a prize and get with each one of you individually to find out what you love and want to take home with you today and explain some of my customer service details to you. Are you excited? Here we go!

Did you know that your skin is your largest organ, it is the thickness of a nickel and by the time you reach age 40 the skin on your face can be stretched out far enough to wrap around your head twice! I know, right?!

There are 5 essential steps to ageless and healthy skin, can you help me name them? (Cleanse, exfoliate, freshen, moisturize and protection)

Well, Mary Kay did some research and found out that most women weren't using all 5 essentials steps, why do you think they weren't using them? (Time is most popular answer) That's right!

So, Mary Kay created a skin care regimen that has all 5 essential steps in just 2 products! (Show basic set) Isn't that exciting? How many of you want beautiful skin ? All of us right? Of course , because your face is the first thing people see when they look at you!

Tonight, you are not only going to get to use this basic set which includes the 5 essential steps but you are also going to get to use 7 more additional benefits in the Day and Night solution! This set of 4 products is called the Miracle set!! Who could use a Miracle tonight?

***Get washcloths wet or take them out of the crockpot and give to each guest. They can begin by using the satin lips and oil free make up remover if you would like to demo them.**

I love having the many options of skin care so that we can work together to find the perfect match for your skin type! While your moisturizer is drying we are going to talk about the other skin care options in our line.

At the bottom of this page you will see:

***MK men's line which includes a face wash, shave foam, after-shave gel, facial hydrator and an advanced eye cream !**

***Clear proof line made as an acne solution at any age for anyone with persistent or occasional breakouts. It's an effective regimen that's clinically proven for clearer skin in just 7 days.**

***Botanical effects line is our eco friendly skin care regimen that has 3 formulas, perfect for any skin type and a great option for anyone with extra sensitive skin or not ready for age fighting products. It is alcohol free, dye free and fragrance free plus the packaging is made from recycled materials.**

***At the top on the right side you will see the Miracle set that we used today and on the left side you will see the TW Repair set , it is the SUPER CHARGED version of the Miracle set ! It reduces the look of contours and recaptures youthful volume! These products are perfect for anyone concerned with the advanced signs of aging! In Mary Kay' s study 100% of women showed an improvement in the appearance of wrinkle severity! WOW!!**

For flip chart page that was the new addition:

Ok, so let's recap what we did on your face earlier and do an experiment on your hand...

Just using the back of 1 hand, put a little of the TW Cleanser on and then wash it off,

then put the day or night solution on the back of that hand and follow with the moisturizer.

That is how quick and easy using the Miracle set every morning would be! Awesome right?!!

Just to put all this in prospective...

The Timewise basic set is like brushing your teeth... the Day and Night solution is like whitening your teeth ... what would happen if you didn't brush your teeth? (yucky, bad breath, fall out) That's right, and guess what?? You can buy new teeth!! However, you can't buy new skin, the skin you have now is the same skin you will have forever! Just like brushing your teeth, you would use the basic set every morning and night and the Day solution for the day and the Night solution for the night in between the cleanser and moisturizer.

**** Now, If you will look at the profile card you filled out earlier, specifically what you answered for questions 4, 5, and 6... When you lift the top copy this will show you what supplements might be right for your skin. Using the example we just used with brushing your teeth, supplements are the little "extra's " that you would use on your skin , like flossing or mouth wash for your teeth! Well, you wouldn't floss and not brush your teeth right? Well, same applies here, you wouldn't use the supplements without using atleast the 5 essentials steps to skin care the basic set. Today we are going use _____ . But you will have an opportunity to try more and your follow up facial.**

Ok, so look at your hand... can you see and feel a difference in your 2 hands? It is time for our experiment! I am going to come around and put foundation on both hands(use matte wear foundation with a bronze color for ivory /beige skin tone and an ivory for bronze skin tone) What difference do you see? Now take your washcloth and draw a line down each hand. Your skin is made up of pores, and it only takes 36 seconds for anything to penetrate into your skin. Skin care becomes the barrier to anything that isn't good for it like day old foundation or pollution!

***have them wash as much off as they can and then follow with the Satin hands treatment**

****follow with CC Cream and the Dash out the door look**
